World Pharma Manufacturing Summit 2012

April 19-20 , 2012

China Wuxi

Organizer: People's Government of Wuxi Pharm Insight Journal

The rise of cost, the imminence of patent expiration, the increasing stringency of regulations, the need for innovation.... It's time for pharmaceutical manufacturers to take a breath from the enormous pressure. But how? Seek for the answer at World Pharmaceutical Manufacturing Congress 2012 (WPMS 2012), a must-attend international event you can't afford to miss.

WPMS 2012 brings top decision makers of world's well-known pharmas and potential partners from both China and abroad to your side. With topics covering regulatory compliance, CMO/ outsourcing partnership, operational excellence, quality assurance and facility management, etc, WPMC 2012 provides one-stop service with practical strategies and solutions for you to cope with the challenges in nowadays pharmaceutical industry.

Hot Topic WPMS 2012

- » Accelerating Regulatory Harmonization to Advance Global Cooperation in Pharma Manufacturing
- » Enhancing Drug Manufacturing Quality by Complying with ICH Guidelines: Practical Implementations
- » An Outline of the Major Updates of China's New GMP and Its Impact on Manufacturing Management
- » How to Practice Quality Risk Management Under China's New GMP
- » Trends in Pharmaceutical Outsourcing from China/ Far East
- » How to Retrofit the Existing Facility to Comply with the New GMP while Successfully Containing Cost
- » From Mono-Product to Multi-Product: Achieving Operational Excellence in a Multi-Product Plant
- » New Tools for Flexible Manufacturing of Monoclonal Antibodies
- » Approaches to Effectively Contain and Handle HP APIs

Eminent Speakers

| | | | | | | | |
|--|---|---|--|--|--|--|--|
|  Keith Saveal Head of Corporate Health, Safety, Environment and Business Continuity Novartis |  Thomas Zimmer SVP of Corporate Quality & EHS Boehringer Ingelheim |  Philippe Van der Auwera Global Head of Safety Risk Management (PDS) & EU-QPPV Pharma Development F. Hoffmann-La Roche Ltd |  Tony Uhe Senior Director External Manufacturing Quality Asia Pacific Janssen Pharmaceutical Companies of Johnson and Johnson |  Mike Brocklebank Senior Pharmaceutical Consultant Foster Wheeler, Asia Pacific |  Joe Zhou CEO Genor Biopharma |  Kevan Reeve Global Category Leader, Global External Sourcing AstraZeneca |  John Hu Vice President & General Manager USP—China |

|  Jan Anne Schelling Director Manufacturing BU China DSM Anti-Infectives |  Jason Zhang President Chiral Quest |  Dittmar K. Nerger Head of Healthcare Strategic Sourcing and Compliance Far East Bayer Healthcare Shanghai |  John Machulski Senior Project Director Lonza Biologics Singapore |  Neeraj Katare Vice President of Operational Excellence Piramal Healthcare |  Misha Muzikant Bachelor of Architecture Pratt Institute M+w group |  Jurgen Grebe Marketing and Sales Director Martin Christ |  Lida Liu Quality/Validation Manager Christ Aqua Pharma & Biotech |

Last year's Sponsors

Support media

舒适系统网 <http://cs.es168.cn> 《舒适系统》 《冷链物流》

who should attend?

CEOs/ Vice Presidents/ GMs/ Directors/ Heads/ Senior Managers/ Managers/ Engineers/ Technicians/ Experts from Pharmaceuticals, Biotech, Contract Manufacturing Organizations, Device/Equipment Suppliers, Consultants and Service Providers working in the following:

- Manufacturing and Production
- Plant/ Site/ Facility
- Operation/ Operational Excellence
- Engineering
- Lean/ Six Sigma/ Value Stream
- Regulatory/ GMP Compliance
- QbD/ PAT/ MES
- Validation
- Contract/ Outsourced/ 3rd Party Manufacturing
- Quality Assurance/ Quality Control
- Procurement
- Process Development/ Process Management/
- Supply Chain Management
- Process Improvement
- Technology Transfer/ Development
- Packaging& Material Management

Agenda WPMS 2012

Session 1 Purchasing and Supply Chain Strategy

Facing the complex global pharmaceutical market, pharmaceutical commercial enterprises without exception, are offering supply chain strategy. Establishment of upstream and downstream entire supply chain to provide value-added services, to provide the world's most advanced, most flexible solutions, that is Competitive advantage. Drug supply chain management application product quality traceability system has become a trend, and has gradually formed a recognized industry standards, this is a social call, is also the enterprise's own development needs.

session 2 Bio-medicine and society

Biological pharmacy as a biological engineering development and application in the most active, the most rapidly developing fields, was recognized as the most promising industries in 21st century. Biological medicine in the global epidemic, China listed enterprises to actively participate in this emerging industry gave us a lot of inspiration.

Session 3 Green raw material production

More green more profit! With the global "green production" is increasing, environmental protection has become the invisible barriers to trade, medicine raw materials enterprises feel the pressure.

Session 4 Pharmaceutical production

The pharmaceutical industry to continue to work hard to improve efficiency. If you want to succeed in China, India, the challenge is to balance the quality, safety, reliability and low cost ability. Asian countries strive to improve the level of their business at the same time, more and more pressure. How to deal with frequent regulation in western countries audit, how the pharmaceutical production process in strict accordance with the GMP?

Session 5 Drug Life-cycle Management Planning and drug-management strategies

Government social management and public service one of the important functions of guaranteeing the basic drug fair. However, the basic drug production and distribution, in the macro management of the government should give full play to the role of market mechanism. On the essential medicine executes open invite public bidding procurement, unified distribution, to reduce the circulation link, guide the basic drug supply to the fair and orderly competition. Procurement bidding is typical of a market economy practices; uniform distribution is also modern logistics mode.

Session 6 The world's leading CRO/CMO/CSO

Pharmaceutical supply chain extension for current and future CRO situation has important influence. In order to meet the changing needs of pharmaceutical companies, CMOs has started in the geographic range expansion, so that in the global footprint. Asian CMOs began to get involved in the North American and European R & D, while the western CMOs also began to strengthen its position in Asia. Customers in the selection of outsourcing partners and set the project strategic goal, usually requires it is commercialized. In general, have common technology, general product quality and general supply chain capabilities western suppliers under the maximum competitive pressure. Nevertheless, those can provide unique technology, or to ensure the key raw materials supply chain security enterprises, can use the differentiation strategy, through the provision of value-added products, guarantee Viability.
